Essay

10-01

I think it bad and the same time good education. It bad because the Some Parents is not good like a teachers, It means that Chindren being hot so smart like them classmates. Also it bad because ~~that~~ kid dont making any friends, ile sitting in the house all day and mouth. All Parents Shodld control their children. but Some Parents get tired of controlling their children. If Parents dont control them child, ~~the~~ they will lack disciplin. Children will disagree with their Parents, they will agrue and children will get Punished. It means, that Parents Should watch after their children. Also lack disciplin touch the society. The child become an outcast in Society.

But there are many positives about home educations. Studing at home child does no risk to get injury. In School child risk get injury because there are many people in One Place. In School child may get negative influence by they classmates. At home, the student is isolated from negative influence because he studying alone. Studying alone, pupil is more focused on his studies than in school becose in school he studying not alone, around him many ether pupils, which can interfere them study. When a pupil studies at home he is not limited in time.

That's why i'm think that home study is bad but the same time good think.
